

LIVING FOR TODAY

Start Stop
Now Stop

Don't you think it's time we started looking at the present
Stopped dwelling in the past and planning for the future
And don't you think it's time we stopped venting all our sorrows
Our lousy yesterdays and our hideous tomorrows

And don't you think our actions are based upon our lives
And don't you think our questions will get us some replies
And don't you think a better world would swiftly come our way
If we stopped procrastinating and started living for today

Start living for today
Start living for today
Start living for today
Start!

Stop.....Stop!

Listen while I'm asking coz we're wasting time already
Listen very carefully I haven't time to lie

Listen to my verdict coz the trial's almost over
The jury's indecisive and the judge has had to fly

And don't you think our actions are based upon our lives
And don't you think our questions will get us some replies
And don't you think a better world would swiftly come our way
If we stopped procrastinating and started living for today

Start living for today
Start living for today
Start living for today
Start! Start living for today, start living for today, living for today
Don't you think a better world could swiftly come our way?

Living, living!

Don't you think it's time that we stopped venting all our sorrows?
Our lousy yesterdays and our hideous tomorrows
Listen to my verdict coz the trial's almost over
The jury's indecisive and the judge has had to fly!

Living for today
Living for today
Living for today

Start living for today
Stop, start.....living

Living for today
Ahhhhhhhh living for today!

Living, living, living for, living for TODAY!
