

GIVE ME A CHANCE

I'm gonna show you **BABY!**

Chance'd be a fine thing!
Chance'd be a fine thing!
Chance'd be a fine thing!

You say you've got problems
I don't doubt it
You say you are the only one (only one, only one)
Living without it
And I know that at the moment
You think it's really true
And I know that you can't see it,
From another point of view

Give me a chance
To show you that I love you baby
Give me a chance
You've nothing left to lose
Give me a chance
I'll **PROVE** that I still love you baby
Give me a chance

You say you've got problems (without it)
There's no need to shout it
You cannot be the only one (without it)
Living without it (without it)
Don say that I'm the lucky one
You say my life has just begun
I say that in a thousand years
You'll **NEVER** wipe away your tears

Give me a chance
To show you that I love you baby

Give me a chance
You've nothing left to lose
Give me a chance
I'll **PROVE** that I still love you baby
Give me a chance

Chance'd be a fine thing!
Chance'd be a fine thing!

Now give me a chance, to enhance our romance
Make some changes, make exchanges, override our circumstance

Now you say I'm the lucky one, I say we **CAN** make it fun
So let's not fret, let's not regret, give me a chance to take action
Give me a chance, a one-on-one love transaction

You've had you're chance
You've had you're chance
You've had you're chance

Like it or not (Give me a chance)
You can't live without it (Give me a chance)
You say you've got problems (Give me a chance)
Well I don't really doubt it (Give me a chance)

Chance would be a fine thing
Give me a chance !
Chance'd be a fine thing
Give me a chance !

Coming back now baby
I'm coming back now baby.....ahhhhhhhhhhh

GIVE ME A CHANCE!
