

# HAVE YOU EVER HEARD OF THE LADY D?

It doesn't matter if you're black or white  
It doesn't matter if it's day or night  
It doesn't matter if you're fat or thin  
Boy what a state they're in!

It doesn't matter if they're big or small  
Like some of us are short or tall  
You gotta be dentally fit and smart  
To be State-of-the-Art!

Have you ever heard of the Lady D?  
There's always some solution if you listen to me  
Have you ever heard of the Lady D?  
Telling you in rhyme about the Dentistry!

It doesn't matter if they're mine or yours  
We need our teeth to stay inside our jaws  
But there are places where plaque can't be seen  
Behind and inbetween

You gotta brush them, it's the only way  
Don't leave it till another day  
There's lot's of ways to clean that space  
That's underneath your brace

Have you ever heard of the Lady D?  
There's always some solution if you listen to me  
Have you ever heard of the Lady D?  
Telling you in rhyme about the Dentistry!

Hey listen now - it isn't true that teeth are weak or strong!  
And it could be that you are brushing wrong  
Brushing right is like learning to play the drums  
And you can cure bleeding gums!

It don't matter if you're male or female,  
The color of your skin, or whether you are young or old  
Listen - nothing is as good as your own natural teeth  
Even eighteen carat cast pure gold  
Now let me give you inspiration  
I'm gibing you some really good professional insight  
Until I start to hear you tell me that  
I've really helped to make you see the light

It don't matter if you're rich or poor, dim or bright  
Teeth still go bad if they're not brushed at night

Black or white  
Some ways are wrong or right  
Are you brushing them right or wrong?  
And it's not about weak or strong!

It doesn't matter if you're black or white  
If your teeth go bad you'll look a sight  
So it matters if you're brushing wrong  
And don't keep your brush too long

Unlike the color of your skin it matters if teeth are black or white  
However tooth decay is most likely to happen in the night  
So brush at bedtime essentially is the way to get it right  
I hear you say one day won't make a difference but it just might

It's time to think do you want teeth like stars which come out at night?  
And do you want to end up libing on soup coz you can't bite?  
So let's think ahead, let's try to use some vision and some foresight  
So ask yourself, do I care if my teeth are black or white?
