

ONCE UPON A TIME

Come lie next to me
See what we've got
This, baby is the real thing
This, baby is ... Love

Once upon at time, in a nursery rhyme
Some one cast a spell on me!
Now the poem ends (now the poem ends!)
I've truly found a friend
Live happily, happily, happily ... ever after

Come lie close to me
See what I've got
Is this baby the real thing?
Is this baby. ... Love?

Once upon at time, in a nursery rhyme
Some one cast a spell on me!
Now the poem ends (now the poem ends!)
I've truly found a friend
Live happily, happily, happily ... ever after

This time baby I'm really in love,
And I keep looking out I thank the angels above,
That I found you here upon this earth
And I thank the lord for providing your birth,
So that I can hold you and I can love you,
There's nothing left in this world I would rather do,
Than rock you in my arms and keep you from all harm,
And I thank the heavens above 'cos I've found true love

Once upon at time, in a nursery rhyme
Some one cast a spell on me!

Now the poem ends (now the poem ends!)
I've truly found a friend
Live happily, happily, happily ... ever after

Come lie next to me
See what we've got!
Come lie next to me

Come, come, come, come
